National College Fairs®
A PROGRAM OF NACAC

Encourage your students to register online today for NACAC's 2014 college fair circuit.

Students can now also register right on a smart phone at www.gotomyncf.com.

Why should students register?

Maximize Students' time at the fair

- Students can visit more colleges / universities
- Students provide information <u>one time</u>
- Information is accurately and quickly captured
- Paper free, environmentally friendly solution

A streamlined process for students and colleges

The benefits of online student registration

Students register for the fair. This process creates a barcode encrypted with the student data. It also eliminates the need for college contact cards. Entering the information one time allows the student to elaborate on special interests, extra-curricular activities, and accomplishments.

Online Student Registration

After completing the online registration form, the student will print and bring the barcoded pass for admittance to the fair. College representatives will scan the barcode to receive student data that is always correct, complete and legible. As the student takes the admittance pass from booth to booth, he/she will have more time to discuss academic information, background and future goals with the college representatives.

Student Registration FAQ's

Answers to questions about student registration can be found by clicking here.

How can counselors help?

Schedule meetings with students to prepare for the fair and encourage them to register at www.gotomyncf.com.
